

NEW STRONGER TORQUE

XL-MHD

The **XL-MHD** series delivers the deepest depth and the highest torque. The truck- or track-mounted XL-MHD drills up to 12 feet in diameter. Overall, the XL-MHD offers an excellent combination of power, dependability, versatility, and efficiency on even the most demanding jobs.

Whether you prefer square or round Kelly bars, the XL-MHD is available in multiple mast-height configurations. The XL-MHD does not require any assembly for track units, and truck units are mounted on a conventional truck chassis permitting quick mobilization saving valuable time and expense.
