

SPIRADRILL SERVICE — DIRECT TO YOU

Exclusively available from Spiradrill, the **Service Direct Program** is designed to extend the life of your Spiradrill rig while reducing service and repair costs through proactive maintenance.

- Key benefits include:
- Convenience: we come to you
 - Provides predictive costs for budgeting
 - Reduces downtime
 - Maintenance performed by manufacturer to warranty standards
 - Extends the life of your rig
 - On-site technical training

What is the Spiradrill Service Direct Program?

- Spiradrill-certified professional on site
- Spiradrill fleet inspection
- 100+ point inspection starting from the crown block down to the base frame.
- Spiradrill Direct Limited Warranty
- Perform minor maintenance that includes: deck engine oil change, oil filter, and fuel filter.
- Hydraulic maintenance, including filters, cartridges, and cylinder repairs
- Detailed rig inspection with service and repair recommendations, including:
 - Remedial maintenance with quotes
 - Check for stress cracks
 - Preventative maintenance with quotes
 - Projected life expectancy
 - Predictive recommendations for budget and planning purposes
- Maintain rig history report

DON'T FORGET TO ASK FOR KELLY BAR EVALUATION

Bent and worn Kelly bars can significantly reduce performance. While we're on site servicing your rig, Spiradrill's trained experts can also perform a detailed inspection with recommendations on most Kelly bars. It's another great way to keep your rig *turning to the right!*
