Power unit: John Deere 6068 (tier 3) diesel power unit with approx. 185 hp. coupled to hydraulic pump drive for hydraulic power supply.

- **Main Kelly winch:** Braden PD15 (18,000 lbs).
- **Mast:** Tubular constructed and fitted with main winch and rotary table. Complete mast, rotary drive and Kelly travel (crowd) 48" in a specially designed support frame that is coupled to the main frame and for positioning of the mast in the drilling position.
- **Kelly:** 3 1/2"x5"x7"x 9" square Kelly to accommodate drilling depths up to 120'. 4" stub with hole.
- **Hydraulic reservoir:** 160-gallon hydraulic oil tank with integrated filters and strainers. Heat exchanger provided to maintain operating temperature.
- **Slide base:** 36" hydraulic operated slide travel frame to include single planetary drive, motor and dual brake for rig rotation. Swing drive includes a deceleration system for optimum control. Nylatron slide plates are used to minimize metal wear.
- **Truck base frame:** Rugged extended base frame to accommodate tandem drive axles with hydraulic pushout style front outriggers and low-profile rear outriggers. Includes rear fenders, clearance lights and mud flaps.
- **Headache rack:** Mounted behind truck cab for mast support.
- **Mounting:** on new 2014 Peterbilt Model 367 at factory.
Vin #1NPTX4EX0ED215828
- **Paint:** Cat yellow, Black base.
- **Digital depth & swing display.**
- **Non-skid fender surface.**
- **(8) working lights.**
- **Extended crown block.**
